# CABLE AND HOME THEATER PRODUCTS

	MODEL#	DESCRIPTION/APPLICATION	SIZE / PRICE
	RCA1000 With Brackets	The RCA1000 single channel Hum Eliminator can be used to remove Ground current induced video interference such as "hum bars" and eliminate any visible distortion and improve picture quality. 75 Ohms	4.7 x 3.2 x 2.3 \$110.00
	RCA3000  RCA3250 With Brackets	3 channel Hum Eliminators for use with any HDTV Analog (Y,PbPr or RGB) ,Component, Y R-Y B-Y. Enhances video quality and eliminates Hum bars. Helps to reduce RF interference. 75 Ohms	7.4 x 4.3 x 2.4 \$250.00
	AV3000  AV3250 With Brackets	Video Hum Eliminator & two channel audio isolation transformers. Can be used to solve any audio and video hum or buzz problem. Can be used with all VCR stereo audio and composite video outputs.	7.4 x 4.3 x 2.4 \$150.00
	S2000  S2250 With Brackets	The S2000 SVideo Hum Eliminator can solve problems caused by ground loops in home theater. Can be used with any SVideo output from a VCR or DVD. Standard Svideo connectors wide bandwidths and 75 ohms. S2250 supplied with mounting brackets.	7.4 L 4.3 W 2.4 H  \$135.00
	SVIT200  SVIT225 With Brackets	The SVIT200 is a true video transformer. Can be used with any SVideo output from a VCR or DVD. Useful in any mobile home application. Standard Svideo connectors wide bandwidths and 75 ohms. Svit225 supplied with mounting brackets	7.4 L 4.3 W 2.4 H  \$135.00
	RCAVIT	The RCAVIT is a true video isolation transformer with completely isolated primary and secondary windings. It will improve Video quality by isolating ground currents in any video circuit suffering from Ground loops. GOLD connectors insure good connections.	4.7 x 3.2 x 2.3 \$110.00

# CABLE AND HOME THEATER PRODUCTS

	MODEL#	DESCRIPTION/APPLICATION	SIZE / PRICE
	CATV1300	The CATV1300 Cable TV Ground Loop Isolator will improve Audio/Video quality by eliminating 60 Hz ground currents. Bandwidth covers VHF/FM/UHF/CATV spectrum. Stops digital cable signal degradation. GOLD connectors insure good connections	\$60.00
	ISOCATV1	The ISOCATV!1 is a true isolation transformer for use with cable TV systems to eliminate audio and video noise and distortion and hum. Easy to use and can be installed by anyone. Male ,female connections, 75 ohms. Useful on some satleite systems that have independent video and power connections.	\$60.00
	SURGE-SE1	This Surge protector is designed to protect all your expensive audio and video components from damage caused by surges on your cable system. Lighting strikes and equipment malfunctions even miles from your home can cause damaging surges on your home cable system.	\$25.00
	ATI101	The ATI101 is a true two channel audio isolation transformer. Can be used to solve any audio hum or buzz problem. Works with all VCR or DVD stereo audio outputs. Works great with computer sound cards and in mobile installations too	\$69.00
	PN AES/EBU- XLRM MALE XLR CONNECTOR	<b>AES / EBU TRANSFORMER</b> Digital audio Transformer/Adapter converts 110 ohm balanced AES/EBU (XLR) TO 75 OHM UNBALANCED (BNC). Their use allows for longer runs using 75 ohm unbalanced coaxial lines rather than twisted pair cables that have high losses in digital audio applications. These adapters provide Impedance matching between balanced 110 Ohms and unbalanced 75 Ohms.	\$60.00
	PN AES/EBU- XLRF FEMALE XLR CONNECTOR	<ul style="list-style-type: none"> <li>• Transition of balanced / unbalanced circuit (balun).</li> <li>• Electrical isolation</li> <li>• Reduction of hum and noise.</li> </ul>	\$60.00
